

Trayless Dining

Everyday, Sodexo serves **2,355,128 meals** to college students across the country.

The **waste** per meal: **1.2565 lbs** with a tray vs. **0.4147 lbs** without a tray

Removing trays translates into a **savings of 1,982,617 lbs of food per day.**

Every year, we **could save over 515,480,524 lbs of food** –
enough to **feed 109,676,707 people.**

35 million people are at risk of hunger in the United States and we **could feed three times** that many with the food wasted every year from using trays.¹

Still Not Convinced?

1. Decrease the amount of food thrown away by more than 60%
2. Spend less time and resources doing dishes
3. Drastically decrease water usage → Ecolab will analyze your savings for free!
4. Eat less, feel better – discourages taking oversized portions
5. Spend more time enjoying your meal and less time waiting in line
6. Decrease customer wait time and expedite service
7. Remember: you can always go back for seconds!
8. "Take the cafeteria out of the cafeteria"...transform mealtime into a dining experience for customers

¹ Waste data based on conservative observations by Todd Wixson at Pittsburg State University
